Research Experience

06/2023 – Present: Under the supervision of Research, Dr. Tonglin Jiang, Peking University

- Examining how the experience of historic events affect people’s meaning of life with Big data approach.

09/2021 - Present: Under the supervision of Associate Professor, Dr. Feng Kong, Shaanxi Normal University

- Examining the consequences of childhood adverse experiences on well-being and prosocial behavior using daily diary approach
- Investigating the development of social emotions and prosocial behavior through meta-analytic methods
- Exploring the cognitive-affective structure of gratitude with SEM modeling

12/2022 – 03/2023: With the guidance of Associate Professor, Dr. Feng Kong, Shaanxi Normal University

- Leading a project called “Text Analysis of Microblog on Social Governance Policies”
- Examining the public attitudes and emotional responses to quarantine policies of Covid-19 using sentiment analysis and subject analysis to analysis the microblogs on social media
- Finding that emotional responses could efficiently predict the adjustment time of quarantine policies in different regions of China

09/2020 - 06/2021: With the guidance of Professor, Dr. Ziming Zeng, and Associate Professor, Dr. Zhongyi Hu, Wuhan University

- Examining social media behavior and its relationship with personal characteristics and well-being
- Searching, categorizing and selecting literature

July 8, 2023

12/2019 - 2/2020: With the guidance of Associate Professor, Dr. Lin Wang, Wuhan University

- Developing educational administration system for School of Information Management, Wuhan University
- Completing the functions of information import, export and search, and title evaluation algorithm design
- Designing data flow chart, plan the content and format of sql table, design output format with Java

Extra-curricular Activities

10/2022 - 11/2022 Participant – Program for the Cultivation of High-level Internationalized Talents

- Finishing the course of “Big data and public health management” taught by Prof. Ramezani, UCLA

01/2020 - 01/2021 Research Assistant – Lab of Information Management, Wuhan University

- Equipment management, including computers and other equipment for conducting experiments
- Web design for the lab
- Operational manual writing, including eye tracker, motion capture device and virtual reality device

10/2018 - 09/2019 Founder and Leader – SIM Drama Club of Wuhan University

- Founding and leading over 30 members taking part in drama competitions and performances
- Being the director and actor in multiple plays like “Romeo and Juliet”, “Tartuffe”

09/2017 - 03/2018 Member – Student Union Publicity Department, School of Information Management, Wuhan University

- Creating promotional videos of various campus activities, among which the end video has been adopted and used by the department for years.

Certificates and Honors

05/2023 Second Prize, National English Contest for College Student, China

03/2023 Second Prize, "Challenge Cup" National College Student Curricular Academic
Science and Technology Works Competition, China

03/2023 Honorable Mention, English Speech Contest, Shaanxi Normal University

12/2022 ¥8000 Second Prize, Graduate Jixue (Academic) Scholarship, Shaanxi Normal University

05/2022 Second Prize, National English Contest for College Student, China

12/2021 ¥4000 Third Prize, Graduate Jixue (Academic) Scholarship, Shaanxi Normal University

07/2020 Honorable Mention, Midwest Translation Competition, China

11/2019 Third place, Autumn melodrama individual competition, Wuhan University.

05/2018 Outstanding student leader, School of Information Management, Wuhan University

July 8, 2023

Specialized Skills

Statistical Analysis and Software

- Expertise in multilevel analysis in Mplus
- Expertise in meta-analysis and cross-lagged panel analysis in R
- Preprocessing EEG and fMRI data in MATLAB
- Expertise in data crawling, data cleaning, and data analysis with Python
- Expertise in doing natural language processing with Python
- Expertise in conducting machine learning with Weka, Python or Java
- Expertise in storing and processing data with sql and Java
- Expertise in data visualization using Tableau.

Languages

- TOEFL 103 (Reading 30, Listening 30, Speaking 23, Writing 20)
- Spoken fluency in English and Mandarin
- Written fluency in English and Chinese

Others

- Web design with JavaScript in Dreamweaver
- Server deployment on GitHub and server machine
- Software engineering with Vue, spring boot, and miniApp of WeChat
- Video and picture processing with Adobe Premiere, Adobe Effects, and Photo Shop

Self-evaluation

- I have interdisciplinary background, thus master both information technology (e.g., programming, statistical modeling) and psychological theories (e.g., social psychology, developmental psychology, and neuroscience).
- I'm a quick learner, and can acquire any new technology or knowledge shortly.
- I own solid academic foundation in psychology and could finish demanding work with patience and high sense of responsibility.
